Series	Model	Configuration	Code	Description
Economical two post lift	TLT235SB	Basic configuration	304030498	TLT235SB with domestic power unit380V/50HZ 3phase 10L(English)
			304030623	TLT235SB with domestic power unit 220V/50HZ 1phase 10L(English)
			304030597	TLT235SB with domestic power unit 220V/60HZ/ 1phase 10L(English)
			304030840	TLT235SB with domestic power unit 380V/50HZ 3phase 10L, neutral pack(English)
			304030915	TLT235SB with domestic power unit 220V/50HZ 1phase 10L, neutral pack(English)
			304031167	TLT235SB with domestic power unit 220V/60HZ 1phase 10L,(neutral pack)(English)
			304030986	TLT235SB with domestic power unit 380V/50Hz 3phase 10L, iron oil tank(English)
		CE configuration	304031188	TLT235SB with domestic power unit 380V/50HZ 3phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
			304031189	TLT235SB with domestic power unit 220V/50HZ 1phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
	TLT235SC	Basic configuration	304030501	TLT235SC with domestic power unit 380V/50HZ 3phase 10L(English)
			304030595	TLT235SC with domestic power unit 220V/60HZ/ 1phase 10L(English)
			304030626	TLT235SC with domestic power unit 220V/50HZ 1phase 10L(English)
			304030671	TLT235SC with domestic power unit 220V/60HZ/ 3phase 10L(English)
			304030794	TLT235SC with domestic power unit 380V/50HZ 3phase 10L(neutral pack)(English)
			304030916	TLT235SC with domestic power unit 220V/50HZ 1phase 10L, neutral pack(English)
			304030968	TLT235SC with domestic power unit 380V/50HZ/3phase10L,iron oil tank(English)
		CE configuration	304031190	TLT235SC with domestic power unit 380V/50HZ 3phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
			304031191	TLT235SC with domestic power unit 220V/50HZ 1phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
	TLT235SC(U)	CE configuration	304031192	TLT235SC(U) with domestic power unit 380V/50HZ 3phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
			304031193	TLT235SC(U) with domestic power unit 220V/50HZ 1phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
	TLT240SB	Basic configuration	304030505	TLT240SB with domestic power unit 380V/50HZ 3phase 10L(English)
			304030630	TLT240SB with domestic power unit 220V/50HZ 1phase 10L(English)
			304030596	TLT240SB with domestic power unit 220V/60HZ 1phase 10L(English)
			304031108	TLT240SB with domestic power unit 220V/60HZ 1phase 10L,(neutral pack)(English)
		CE configuration	304031194	TLT240SB with domestic power unit 380V/50HZ 3phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
			304031195	TLT240SB with domestic power unit 220V/50HZ 1phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
	TLT240SC	Basic configuration	304030507	TLT240SC with domestic power unit 380V/50HZ 3phase 10L(English)
			304030632	TLT240SC with domestic power unit 220V/50HZ 1phase 10L(English)
			304030599	TLT240SC with domestic power unit 220V/60HZ 1phase 10L(English)
			304030668	TLT240SC with domestic power unit 220V/60HZ 3phase 10L(English)
			304030917	TLT240SC with domestic power unit 380V/50HZ 3phase 10L, neutral pack(English)
			304030918	TLT240SC with domestic power unit 220V/50HZ 1phase 10L, neutral pack(English)
			304031100	TLT240SC with domestic power unit 220V/60HZ 1phase 10L,(neutral pack)(English)
		CE configuration	304031196	TLT240SC with domestic power unit 380V/50HZ 3phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
			304031197	TLT240SC with domestic power unit 220V/50HZ 1phase 10L,button box,flow-control valve,with guardrail ,with cylinder travel limit switch(English)
Luxurious two post lift	TLT235SBA	CE configuration	304031220	TLT235SBA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031221	TLT235SBA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031222	TLT235SBA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031223	TLT235SBA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031244	TLT235SBA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031245	TLT235SBA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031246	TLT235SBA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031247	TLT235SBA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
	TLT235SCA(U)	CE configuration	304031228	TLT235SCA(U) with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031229	TLT235SCA(U) with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031230	TLT235SCA(U) with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031231	TLT235SCA(U) with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031252	TLT235SCA(U) with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031253	TLT235SCA(U) with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031254	TLT235SCA(U) with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031255	TLT235SCA(U) with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
		Basic configuration	304030491	TLT235SCA(U) with domestic power unit 380V/50HZ/ 3phase 10L(neutral pack)
			304030829	TLT235SCA(U) with domestic power unit 220V/50HZ/ 1phase 10L(neutral pack)
	TLT240SBA	CE configuration	304031232	TLT240SBA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031233	TLT240SBA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031234	TLT240SBA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031235	TLT240SBA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031256	TLT240SBA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031257	TLT240SBA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031258	TLT240SBA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031259	TLT240SBA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
	TLT240SCA	CE configuration	304031236	TLT240SCA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031237	TLT240SCA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031238	TLT240SCA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031239	TLT240SCA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,standard arm(English)
			304031260	TLT240SCA with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031261	TLT240SCA with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031262	TLT240SCA with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
			304031263	TLT240SCA with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,long arm+three-section arm(English)
	TLT235SBA(E)	CE configuration	304031240	TLT235SBA(E) with domestic power unit 380V/50HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,special three-section arm(English)
			304031241	TLT235SBA(E) with domestic power unit 220V/50HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,special three-section arm(English)
			304031242	TLT235SBA(E) with domestic power unit 220V/60HZ 1phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,special three-section arm(English)
			304031243	TLT235SBA(E) with domestic power unit 220V/60HZ 3phase 10L,CE-STOP module,flow-control valve,with cylinder travel limit switch,overhead pump,emergency lowering device,special three-section arm(English)
Heavy-duty two post lift	TLT245AT	Basic configuration	304030812	TLT245AT with domestic power unit 380V/50HZ 3phase 12L(English)
			304030836	TLT245AT with domestic power unit 220V/50HZ 1phase 12L(English)
			304030835	TLT245AT with domestic power unit 220V/60HZ 1phase 12L(English)
			304031102	TLT245AT with domestic power unit 220V/60HZ 1phase 12L,(neutral pack)(English)
	TLT250AT	CE configuration	304031186	TLT250AT(C) with domestic power unit 380V/50HZ 3phase 12L,widened/heightened type,lengthened three-section arm,with guardrail,extension sleeve76mm,button box,flow-control valve(English)
			304031187	TLT250AT(C) with domestic power unit 220V/50HZ 1phase 12L,widened/heightened type,lengthened three-section arm,with guardrail,extension sleeve76mm,button box,flow-control valve(English)
4 post lift	TLT440	Basic configuration	304030494	TLT440E with domestic power unit 380V/50HZ 3phase 12L(English)
			304030614	TLT440E with domestic power unit 220V/50HZ 1phase 12L(English)
			304030769	TLT440E with domestic power unit 220V/60HZ 1phase 12L(English)
			304030896	TLT440E with domestic power unit 220V/60HZ/3phase 12L(English)
			304030989	TLT440E with domestic power unit 380V/50HZ 3phase 12L, iron oil tank,travel limit switch(English)
			304030988	TLT440E with domestic power unit 220V/50HZ 1phase 12L, iron oil tank,travel limit switch(English)
	TLT440W	Basic configuration	304030495	TLT440EW with domestic power unit 380V/50HZ 3phase 12L(English文)
			304030615	TLT440EW slope type with domestic power unit 220V/50HZ 1phase 12L(English)
			304030613	TLT440EW slope type with domestic power unit 220V/60HZ 1phase 12L(English)
			304030664	TLT440EW slope type with domestic power unit 220V/60HZ 3phase 12L(English)
			304031168	TLT440EW slope type with domestic power unit 380V/50HZ 3phase 12L,without turn table(English)
		CE configuration	304030950	TLT440EW slope type with domestic power unit 380V/50HZ 3phase 12L,with guardrail,button box(English)
			304031170	TLT440EW slope type with domestic power unit 380V/50HZ 3phase 12L,balance device,control box,with guardrail(English)
			304031264	TLT440EW slope type with domestic power unit 220V/50HZ 3phase 12L,balance device,control box,with guardrail(English)
Scissor lift	TLT630A	CE configuration	304031003	TLT630A(N) in-ground type with domestic power unit 380V/50HZ/ 3phase (English)
			304031005	TLT630A(N) in-ground type with domestic power unit 220V/50HZ/ 1phase (English)
			304030997	TLT630A(N) in-ground type with domestic power unit 220V/60HZ/ 1phase (English)
			304031107	TLT630A(N) in-ground type with domestic power unit 220V/60HZ 1phase ,(neutral pack)(English)
			304030998	TLT630A(N) on-ground type with domestic power unit380V/50HZ, 3phase (English)
			304031000	TLT630A(N) on-ground type with domestic power unit220V/50HZ, 1phase (English)
	TLT632AF	CE configuration	304030698	TLT632AF on-ground type with domestic power unit 220V/50HZ/1PH, imported seals for cylinder(English)
			304030699	TLT632AF on-ground type with domestic power unit 380V/50HZ/3PH, imported seals for cylinder(English)
			304030656	TLT632AF on-ground type with domestic power unit 220V/60HZ/1PH, imported seals for cylinder(English)
			304030658	TLT632AF on-ground type with domestic power unit 220V/60HZ/3PH, imported seals for cylinder(English)
			304030517	TLT632AF with domestic power unit 380V/50HZ 3phase ,in-ground installation(English)
			304030527	TLT632AF with domestic power unit 220V/50HZ 1phase ,in-ground installation(English)
			304030528	TLT632AF with domestic power unit 220V/60HZ 1phase ,in-ground installation(English)
			304030571	TLT632AF with domestic power unit 220V/60HZ 3phase ,in-ground installation(English)
	TLT830WA	CE configuration	304031072	TLT830WA(N) in-ground type with domestic power unit 380V/50HZ 3phase ,with turntable(English)
			304031073	TLT830WA(N) in-ground type with domestic power unit 220V/50HZ 1phase ,with turntable(English)
			304031074	TLT830WA(N) in-ground type with domestic power unit 220V/60HZ 3phase ,with turntable(English)
			304031075	TLT830WA(N) in-ground type with domestic power unit 220V/60HZ 1phase ,with turntable(English)
			304031076	TLT830WA(N) on-ground type with domestic power unit 380V/50HZ 3phase ,with turntable(English)
			304031077	TLT830WA(N) on-ground type with domestic power unit 220V/50HZ 1phase ,with turntable(English)
			304031078	TLT830WA(N) on-ground type with domestic power unit 220V/60HZ 3phase ,with turntable(English)
			304031079	TLT830WA(N) on-ground type with domestic power unit 220V/60HZ 1phase ,with turntable(English)
